

March 12, 2019

Dear Fellow Hi-Crush Unitholder:

As Chairman of the Board of Hi-Crush Partners LP (NYSE: HCLP) ("Hi-Crush" or the "Company"), I am writing on behalf of the Hi-Crush Board of Directors ("Board") to encourage you to support the proposed Plan of Conversion (the "Conversion") from an MLP to a C-Corporation ("C-Corp") at the upcoming Special Meeting of Hi-Crush unitholders that will be held on April 11, 2019. Please vote your shares "**FOR**" the conversion proposal by Internet, telephone or mail using the enclosed voting instruction form prior to the meeting date. Your vote is important.

The Conversion from an MLP to a C-Corp is expected to provide numerous benefits to the Company and you, our investors. These benefits include enabling diversification and alignment of the corporate structure with the business model, enhancing growth potential, and streamlining corporate governance. Additionally, the conversion will improve access to capital markets, expand our investor base with a simpler, well-understood structure, provide a superior environment for the future of the Company, and enhance our ability to attract and retain directors. Going forward, investors are not taxed on corporate income if no dividends are paid, and no tax liability is expected from the Conversion.

**Our Board has unanimously approved the Conversion.  
We encourage you to vote in favor of this transformative Conversion.**

According to the terms of the Conversion, the outstanding common units representing limited partner interests in the Partnership (the "Units") will each be exchanged for one share of common stock of the corporation. Unitholders will receive, in exchange for their Units, 100% of the common stock to be outstanding immediately following the Conversion. Upon consummation of the Conversion, the Corporation's Common Stock is expected to be listed on the New York Stock Exchange under the symbol "HCR".

**We believe the Conversion is critical to the future success of Hi-Crush. It enables diversification and enhanced growth potential, while better aligning the corporate structure with the Company's business model.**

In short, the new C-Corp, in which we would all participate as stockholders, would be well positioned for future growth. I encourage you to read more about the compelling reasons to support the Conversion in the proxy statement you should have received last week. It is also available on the Hi-Crush website and at [www.sec.gov](http://www.sec.gov).

I encourage you to vote by telephone, mail, or on the Internet to ensure your shares are voted in support of this conversion. Approval of the conversion requires the affirmative vote of a majority of outstanding Hi-Crush units. *Unless you take action to vote your units in favor of this transaction, you are effectively voting against it.*

**Please join the Hi-Crush Board in voting "FOR" the conversion.**

If you have any questions, please call Hi-Crush's proxy solicitor, Georgeson LLC, at (888) 680-1525.

Sincerely,

A handwritten signature in blue ink that reads "Robert E. Rasmus".

Robert E. Rasmus
